Transaction Summary

The transaction reflects an implied equity value for the Company of approximately \$975 million at closing. The cash component of the consideration will be funded by FinTech IV's \$230 million cash in trust as well as a \$125 million fully committed private placement in public equity at \$10.00 per share from various strategic and institutional investors, including Fidelity Management & Research Company LLC, Wellington Management and Korea Investment & Securities, that will close concurrently with the business combination.

The net proceeds from the transaction (after addressing any potential redemptions by FinTech IV's existing stockholders and transaction related expenses), will first go towards repayment of outstanding indebtedness. Up to approximately \$110 million of net proceeds will be used to redeem a portion of ownership interests tendered for redemption by certain non-working PWP equity holders. Any remaining net proceeds will be used for general corporate purposes. At closing of the transaction, PWP expects to have a debt-free balance sheet with access to additional liquidity under an undrawn revolving credit facility.

Existing PWP equity holders, including current working partners and employees of the firm, will remain the largest investors by rolling over significant equity into the combined company, with working partners and employees retaining approximately 50% ownership immediately following the transaction (assuming no redemptions by FinTech IV's existing stockholders).

Pursuant to the business combination agreement, FinTech IV will, subject to obtaining stockholder approval, adopt an amended and restated charter and bylaws and subscribe for and purchase for cash a portion of the equity of the existing PWP parent company, resulting in FinTech IV as the new parent company. Immediately following the closing, FinTech IV will change its name to Perella Weinberg Partners.

The business combination is expected to close in the first half of 2021, pending FinTech IV stockholder approval, regulatory approval and other customary closing conditions. Additional information about the business combination will be provided in a Current Report on Form 8-K to be filed by FinTech IV with the Securities and Exchange Commission ("SEC") that will be available at www.sec.gov and will contain an investor presentation. In addition, FinTech IV intends to file a preliminary proxy statement on Schedule 14A with the SEC, and will file other documents regarding the transaction with the SEC.
