NEW YORK, NY, February 9, 2023 – Perella Weinberg Partners (the "Firm" or "PWP") (NASDAQ:PWP) today reported financial results for the full year and fourth quarter ended December 31, 2022. The Firm reported revenues of \$631.5 million for the year ended December 31, 2021, a record year for the firm. GAAP net loss and adjusted net income were \$(31.7) million and \$81.6 million, respectively, for the year ended December 31, 2022, compared with GAAP net income of \$4.0 million and adjusted net income of \$160.5 million for the year ended December 31, 2021. GAAP diluted net loss per Class A share (also referred to as "GAAP Diluted EPS") and adjusted diluted if-converted net income per Class A share (also referred to as "Adjusted EPS") were \$(0.46) and \$0.78, respectively, for the year ended December 31, 2022.

The Firm reported fourth quarter revenues of \$183.1 million for the three months ended December 31, 2022, compared with \$198.9 million for the three months ended December 31, 2021. GAAP net loss and adjusted net income were \$(22.6) million and \$12.0 million, respectively, for the three months ended December 31, 2022, compared with GAAP net loss of \$(18.0) million and adjusted net income of \$38.4 million for the three months ended December 31, 2021. GAAP diluted EPS and adjusted EPS were \$(0.28) and \$0.11, respectively, for the three months ended December 31, 2022.

"Despite one of the most challenging economic environments in recent memory, it's a great testament to the firm that in this context we continued to grow our partnership, our MD group and the firm; expanded our client relationships around the world; and returned a significant amount of capital to shareholders. In addition, we accomplished a smooth transition of leadership without missing a beat," stated Peter Weinberg, Founding Partner and Chairman.

"We enter 2023 with momentum and a continued focus on scaling our platform over the longer-term. As we begin a new year, we reflect on how grateful we are for our dedicated clients, our exceptional teammates, and the outstanding leadership which Peter provided since the founding of our firm nearly 17 years ago," stated Andrew Bednar, Chief Executive Officer.

Revenues

For the year ended December 31, 2022, revenues were \$631.5 million, compared with \$801.7 million for 2021, a decrease of 21% off of record year performance. For the fourth quarter 2022, revenues were \$183.1 million, a decrease of 8% from \$198.9 million for the fourth quarter 2021. The period-over-period decline, for both the full year and the fourth quarter, was primarily driven by a reduction in mergers and acquisition activity partially offset by a step-up in fees related to our financing and capital solutions advisory business. The decrease in revenues for the full year period can be attributed to both fewer advisory transaction completions as well as a decrease in average fee size per client. The decrease in revenues for the fourth quarter 2022 was driven by a decrease in average fee size per client as compared to the fourth quarter 2021, despite a modest increase in the number of advisory transaction completions.

| % of Revenues | 21% | | 17% | | 19% | | 15% | | | |

GAAP total compensation and benefits were \$545.5 million for the year ended December 31, 2022, compared to \$600.7 million for the year ended December 31, 2021. Adjusted total compensation and benefits were \$421.1 million for the year ended December 31, 2022, compared to \$504.3 million for the year ended December 31, 2021. The decrease in both GAAP total compensation and benefits and adjusted total compensation and benefits was due to a smaller bonus accrual on an absolute dollar basis associated with lower revenues, despite a higher compensation margin necessitated to attract, motivate and retain talent. On a GAAP basis, the smaller bonus accrual amount was partially offset by increased equity-based compensation related to equity awards issued in connection with or subsequent to the Business Combination.

GAAP non-compensation expenses were \$133.7 million for the year ended December 31, 2022, compared with \$134.4 million for the year ended December 31, 2021. Adjusted non-compensation expenses were \$123.1 million for the year ended December 31, 2022, compared with \$123.0 million for the year ended December 31, 2021. The relative stability experienced in both GAAP non-compensation expenses and non-compensation expenses on an adjusted basis was the result of a step-up in certain spend, including an increase in travel and related expenses as our teams returned to more normalized travel, an increase in technology and recruiting spend, a full year of public company costs including D&O insurance, and an increase in bad debt expense, offset by a moderation in other spend categories including a decrease in professional fees related to consulting and legal expense, lower rent and occupancy costs as a result of our New York lease extension, and reduced depreciation and amortization expense due to office locations reaching the end of their initial lease terms. On a GAAP basis, non-compensation expenses also comprised of costs associated with a potential future partnership restructuring that had been contemplated during the implementation of the up-C structure as well as costs associated with the warrant exchange transaction.

GAAP total compensation and benefits were \$167.1 million for the fourth quarter 2022, compared to \$162.2 million for the fourth quarter 2021. Adjusted total compensation and benefits were \$134.1 million for the fourth quarter 2022 as compared to \$118.5 million for the same period a year ago. The increase in both GAAP total compensation and benefits and adjusted total compensation and benefits in the fourth quarter 2022 was due to a higher compensation margin which was the result of a decision made in the fourth quarter to increase the full year compensation margin from the level where the Firm was previously accruing.

^{*} Throughout this release, adjusted figures represent Non-GAAP information. See "Non-GAAP Financial Measures" and the tables at the end of this release for an explanation of the adjustments and reconciliations to the comparable GAAP numbers.

GAAP non-compensation expenses were \$35.6 million for the fourth quarter 2022, compared with \$37.3 million for the fourth quarter 2021. Adjusted non-compensation expenses were \$32.1 million for the fourth quarter 2022, compared with \$35.4 million for the same period a year ago. The decrease in both GAAP non-compensation expenses and non-compensation expenses on an adjusted basis was primarily driven by lower professional fees related to consulting and recruiting, reduced depreciation and amortization expense due to office locations reaching the end of their initial lease terms, and reduced D&O insurance costs over the prior year period, partially offset by an increase in travel and related expenses as our teams returned to more normalized travel, periods of overlapping rent related to our new headquarter locations, and an increase in technology spend. On a GAAP basis, the decrease in non-compensation expenses was also partially offset by costs incurred in the fourth quarter 2022 relating to a potential future partnership restructuring that had been contemplated during the implementation of the up-C structure at the time of the Business Combination.

Provision for Income Taxes

Perella Weinberg Partners currently owns 48.39% of the operating partnership (PWP Holdings LP) and is subject to U.S. federal and state corporate income tax. Income earned by the operating partnership is subject to certain state and foreign income taxes.

Prior to the close of the Business Combination on June 24, 2021, all of our operating income was derived from the predecessor PWP entity and was not subject to U.S. corporate income tax.

For purposes of calculating adjusted if-converted net income, we have presented our results as if all partnership units had been converted to shares of Class A Common Stock, and as if all of our adjusted income for the period was subjected to U.S. corporate income tax. For the twelve months ended December 31, 2022, the effective tax rate for adjusted if-converted net income was 28.25%.

Balance Sheet and Capital Management

As of December 31, 2022, PWP had \$311.7 million of cash, cash equivalents and short-term investments in U.S. Treasury Securities. The Firm has no outstanding indebtedness and has an undrawn revolving credit facility.

On February 8, 2023, the Firm's Board of Directors authorized the additional repurchase of shares of PWP's Class A common stock in an amount of up to \$100 million incremental to the remaining value of approximately \$25 million as of February 8, 2023 from February 2022's authorization. The authorization does not require the purchase of any minimum number of shares.

PWP may purchase shares from time to time at the discretion of management through open market purchases, privately negotiated transactions, block trades, accelerated or other structured share repurchase programs, or other means. The manner, timing, pricing and amount of any transactions will be subject to the discretion of PWP and may be based upon market conditions and alternative opportunities that PWP may have for the use or investment of its capital. The Company may also from time to time establish one or more plans under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended. The repurchase program may be modified, suspended or discontinued at any time.

During the twelve months ended December 31, 2022, PWP returned \$104 million dollars to shareholders through the repurchase of 9,544,016 shares at an average price per share of \$7.20 in open market transactions pursuant to PWP's Class A common stock repurchase program, the net settlement of 1,045,847 share equivalents to satisfy tax withholding obligations at an average price per share of \$9.28 and the payment of \$25.7 million dollars in pro rata distributions to limited partners which allowed PWP to pay its dividends of \$12.8 million dollars.

The Board of Directors of PWP has declared a quarterly dividend of \$0.07 per share of Class A common stock. The dividend will be paid on March 10, 2023 to Class A common stockholders of record on February 28, 2023.

Non-GAAP Financial Measures

In addition to financial measures presented in accordance with GAAP, we monitor certain non-GAAP financial measures to manage our business, make planning decisions, evaluate our performance and allocate resources. We believe that these non-GAAP financial measures are key financial indicators of our business performance over the long term and provide useful information regarding whether cash provided by operating activities is sufficient to maintain and grow our business. We believe that the methodology for determining these non-GAAP financial measures can provide useful supplemental information to help investors better understand the economics of our platform.

These non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation from, or as a substitute for, the analysis of other GAAP financial measures. These non-GAAP financial measures are not universally consistent calculations, limiting their usefulness as comparative measures. Other companies may calculate similarly titled financial measures differently. Additionally, these non-GAAP financial measures are not measurements of financial performance or liquidity under GAAP. In order to facilitate a clear understanding of our consolidated historical operating results, you should examine our non-GAAP financial measures in conjunction with our historical consolidated financial statements and notes thereto included elsewhere in this press release.

Management compensates for the inherent limitations associated with using these non-GAAP financial measures through disclosure of such limitations, presentation of our financial statements in accordance with GAAP and reconciliation of such non-GAAP financial measures to the most directly comparable GAAP financial measures. See "Non-GAAP Financial Measures" and the tables at the end of this release for an explanation of the adjustments and reconciliations to the comparable GAAP numbers.

Notes to U.S. GAAP Reconciliation of Adjusted Results:

- (1) Equity-based compensation not dilutive to investors in PWP or PWP Holdings LP ("PWP OpCo") includes amortization of legacy awards granted to certain partners prior to the Business Combination and PWP Professional Partners LP ("Professional Partners") ACU and VCU awards. The vesting of these awards does not dilute PWP shareholders relative to Professional Partners as Professional Partners' interest in PWP OpCo does not change as a result of granting those equity awards to its working partners.
- (2) Public company transaction related incentives includes discretionary bonus payments as well as equity-based compensation for transaction-related RSUs which are directly related to milestone events that were part of the Business Combination process and reorganization. These payments were outside of PWP's normal and recurring bonus and compensation processes.
- (3) On November 30, 2016, we completed a business combination with Tudor, Pickering, Holt & Co., LLC (TPH), an independent advisory firm focused on the energy industry. TPH business combination related expenses include intangible asset amortization associated with the acquisition.
- (4) Transaction costs that were expensed associated with the Business Combination, including costs incurred in 2022 relating to a potential future partnership restructuring that had been contemplated during the implementation of the up-C structure at the time of the Business Combination. Transaction costs also include equity-based vesting for transaction-related RSUs issued to non-employees.
- (5) Transaction costs that were expensed associated with the exchange offer and solicitation (together, the "Warrant Exchange") relating to the Company's outstanding warrants, which the Company completed on August 23, 2022.
- (6) See reconciliation below for the components of the consolidated statements of operations included in non-compensation expense—GAAP as well as Adjusted non-compensation expense.
- (7) Change in fair value of warrant liabilities is non-cash and we believe not indicative of our core performance.
- (8) Loss on debt extinguishment resulted from the payoff of the 7.0% Subordinated Unsecured Convertible Notes due 2026 in conjunction with the Business Combination.
- (9) Amortization of debt costs is comprised of the amortization of debt discounts and issuance costs, which is included in interest expense.
- (10) The non-GAAP tax expense represents the Company's calculated tax expense on adjusted non-GAAP income. It excludes the impact on income taxes of certain transaction-related items and other items not reflected in our adjusted non-GAAP results. It does not represent the cash that the Company expects to pay for taxes in the current periods.
- (11) The if-converted tax expense represents the Company's calculated tax expense on adjusted non-GAAP income assuming the exchange of all partnership units for PWP Class A common stock, resulting in all of the Company's income being subject to corporate-level tax.
- (12) Assumed vesting of RSUs and performance restricted stock units ("PSUs") as calculated using the treasury stock method and to the extent dilutive to Adjusted net income (loss) per Class A share—diluted, if-converted.
- (13) Adjusted net income (loss) per Class A share—diluted, if-converted for the twelve month period ended December 31, 2021 is not meaningful or comparative to GAAP diluted earnings per share, as it excludes activity prior to the Business Combination on June 24, 2021.
